Help your young adult advance his or her academic skills this summer to excel in their next school year!

Don’t miss out! Register today online at: www.hbas.edu for all HBAS Academic Preparation Classes & Elementary Summer Arts Programs! Classes are filling up fast!
Gear Up For AP Literature and Composition
This course is designed for students who are new to the Advanced Placement Program and for students who are continuing with the program. Subjects covered include the quality of information needed on AP cards, close reading and critical thinking skills, annotation and note-taking skills, MLA formatting, and essay writing with emphasis on persuasive, compare and contrast, and research papers. During this course students start creating their WHS Portfolio and learn about Google Docs, Canvas, and Turnitin. Campus location: WHS

English Honors 2 Preparation – For Incoming 10th Grade Students
Prepare for a successful sophomore year by gaining increased abilities in advanced study, writing, reading, and reasoning skills. Honors English 2 Prep provides instruction in a skill-building program that helps to ensure students confidently transition to fall. Campus locations: HBHS/EHS

Gear Up For English Honors 2
This course is designed for students who are new to the Honors Program and for students who are continuing with the program. Subjects covered include the quality of information needed on AP cards, close reading and critical thinking skills, annotation and note-taking skills, MLA formatting, and essay writing with emphasis on persuasive, compare and contrast, and research papers. During this course students start creating their WHS Portfolio and learn about Google Docs, Canvas, and Turnitin. Campus location: WHS

AP English Literature & Composition Preparation – For Incoming 12th Grade Students
This class provides instruction in the writing process preferred by high school English teachers including writing mechanics, effective test-taking and note taking, understanding and analyzing non-fiction text, producing clear and coherent writing. Students will learn essential vocabulary needed for taking rigorous, SAT-type tests. Campus location: HBHS

The Poet Within – An Introduction to Reading and Writing Poetry – For Incoming 9th-12th Graders
Awaken the poet within you! This course explores some of the world’s most famous poems and music lyrics through close readings and discussion. Learn about different poetic traditions, consider the relationship of form to meaning, and learn how to identify and utilize figurative language, imagery, diction, rhythm and rhyme. Improve your own poetry writing by using some of the same devices that great poets use. Students will share writings and respond in a supportive workshop environment. Campus location: WHS

English 1 College Preparation (CP) – For Incoming 9th Graders
Start your freshman year ahead of the rest! Improve your organization, time-management, reading comprehension and analysis, and writing skills. Explore various genres such as poetry, short story, novel, drama, and essay. Practice note-taking skills, determine the central idea or theme of a text, and identify significant literary devices used by writers such as symbolism, irony, and metaphor. Improve your understanding of the writing process and writing prompts. Learn how to identify supporting evidence and how to use it in an essay. Learn revision strategies and proofreading skills. Build your vocabulary by studying words in context and utilizing them in your own writing. Campus location: WHS

Digital Portfolios & Interviewing Skills
This course focuses on preparing students for the interview process, specifically the senior exit interview. Skills acquired are also applicable to most interviews including academic and workplace scenarios. The curriculum covers an introduction to Google Docs and Google Sites where students learn to organize their class work, scan and upload information, and create pages culminating in the creation of a digital professional portfolio. Writing resumes, cover letters, and the importance of recommendation and thank you letters are covered. The interview process is examined in the second half of this course. Guest speakers and mock interviews will round out the experience. Campus location: WHS

Mastering & Crafting the College Admissions Essay Preparation
Writing a well-crafted, college application essay is often the deciding factor in gaining admission or receiving a scholarship. This course teaches students how to write their best possible admission essay and strengthen their writing style and voice. Campus location: OVHS

These classes are strictly voluntary. Students will not receive any high school credit for these courses, nor any promise of specific progress or placement. Students are able to enroll in courses offered at any school site if space is available. Class fees vary based on the total number of hours of each course. No Refunds after May 16, 2014.

“I have to once again thank you for the huge improvement in my English Essay Writing skills and I congratulate you for providing such wonderful programs” – Dawn Robinson

Critical Thinking
ART

AP Studio Art
This class is primarily designed to provide enrichment to students taking AP Studio Art in the 2014-15 school year as well as those students who wish to explore and further develop their artistic talents. Campus location: HBHS

WORLD LANGUAGE

Spanish 1—Enrichment
Focusing on vocabulary building and enrichment for entry-level Spanish, this class introduces vocabulary and some grammar concepts for students who will be starting Spanish 1 in the fall, as well as reinforce and provide additional practice for students who have taken Spanish 1. The course provides students with a fun and practical opportunity to acquire all the vocabulary necessary for success in Spanish 1 through a variety of games, songs, and activities. Campus location: FVHS

HISTORY

AP World History Preparation
This two-week course is designed to prepare the student for the challenging curriculum of AP World History. Class activities focus on a daily geography component as well as an analysis of key foundational civilizations and religions. Students develop strong academic skills, such as study strategies and reading analysis, and benefit from a step-by-step description of the DBQ writing process in a small, group-learning environment. Campus location: WHS

MATH

Geometry/Accelerated Geometry Preparation—For Incoming 9th Graders
Designed for students who passed Algebra in the 8th grade, but did not score high enough on the Geometry Placement Exam, this course assists in the transition for entering Geometry in the fall (either Regular or Accelerated). Campus locations: HBHS/MHS

AP Calculus AB Preparation
This class is primarily designed for students who have qualified for AP Calculus but would like to get review and preview practice on some of the difficult topics that are covered in the course. In addition, the students will learn many of the functions associated with the TI-83 and TI-84 calculators. A TI-83 or TI-84 calculator is required for this course. Campus locations: MHS/FVHS

Algebra 1 Preparation/Algebra Readiness
Designed for high school students who have not taken Algebra I or who are not proficient in Algebra I, this course assists in the transition for entering the class in the fall or for extra enrichment practice. Campus locations: HBHS/MHS/EHS/FVHS

Algebra 2/Trigonometry Preparation
Designed for the high school student who has not had any Algebra II or Trigonometry previously, this course assists in the transition for entering the class in the fall. In addition, the students will learn many of the functions associated with the TI-83 and TI-84 calculators. A TI-83 or TI-84 calculator is required for this course. Campus locations: HBHS/MHS/EHS

Algebra 2 Preparation
Designed for the high school student who has not had any Algebra 2 previously, this course assists in the transition for entering the class in the fall. Campus location: EHS

Statistics & Its Application
Recommended for students in the International Baccalaureate (“IB”) program and for students who will be taking AP Statistics or Prod/Stat in the 2014-15 school year. The course provides an in-depth look at all the statistical & probability topics on the International Baccalaureate (“IB”) Math Studies exam. IB students are equipped to plan and finish their external project required for the IB Diploma. The class reviews 20% of topics found on the AP Statistics exam. Campus location: OVHS

SCIENCE

Chemistry Prep/AP Chemistry Prep
Designed for the high school student who plans to take Chemistry or AP Chemistry in the fall, this is a great opportunity for extending student skills and knowledge in chemistry.
Campus locations: HBHS/FVHS/EHS/WHIS

Note: Student Enrollment is not limited to their home school.

“Summer Classes with HBAS are Awesome – The combination of great teachers and engaging classes helped me advance my Math skills!”
– Ryan Kannan

These classes are strictly voluntary. Students will not receive any high school credit for these courses, nor any promise of specific progress or placement. Students are able to enroll in courses offered at any school site if space is available. Class fees vary based on the total number of hours of each course. No Refunds after May 16, 2014.
Students are encouraged to join in the beginning band program if they are learning to play an instrument for the first time, or the advanced band class if they have taken beginning band last year. The classes are sponsored by the Huntington Beach Union High School District Adult School and conducted by Mr. Rob Covacevich, a credentialed band teacher who is a highly experienced music teacher and professional musician, having taught in public schools for over ten years and performed thousands of concerts across the United States.

Program location: Moffitt Elementary School, 8800 Burlcrest Drive, Huntington Beach.

I thoroughly enjoyed the performance and was so impressed what you, your staff and the kids accomplished in less than 2 weeks! Thank you to all of you!"

APA Kids & APA Jr Summer 2014 – For Students Entering Grades 1st-9th, Fall 2014

Students participate in a program of arts education designed for each age group to enhance self-esteem, build bridges among diverse groups, and broaden their creative skills. They experience the arts through active participation in art, music, dance, and acting conducted at the newly renovated visual and performing arts facilities at HBHS. Camp culminates in a showcase performance and mini art show on the last day.

The staff is comprised of certificated and experienced teachers and performers to instruct your children in the arts. Teacher Assistants are from the Academy for the Performing Arts High School staff or are Academy graduates.

Diane Makas, Director, Academy for the Performing Arts (APA) & APA Summer Programs. For 18 years, Diane has been the Artistic Director, a dance instructor and a musical theater instructor for APA, as well as lead founder of Jr. APA & APA Kids. Diane has choreographed numerous productions for APA, Park Playhouse, in Albany, NY and Rose Center Theater to name a few.

This summer program is a partnership of The Academy of Performing Arts (magnet school located at HBHS) and the HB Adult School Community Education Department (fee-based classes) of the Huntington Beach Union High School District. This program is offered based on fees collected and is not funded at public taxpayers’ expense.

Program location: HBHS Historic Theatre & Arts Buildings, 1905 Main St., Huntington Beach 92648. Register online at www.hbas.edu. Click on “Community Ed”. Walk-in registration can also be completed at Huntington Beach Adult School, located at 17231 Gothard Street. An emergency form (can be downloaded from website) must be completed along with registration.

Register online now at www.hbas.edu. Hurry before classes are filled!
