

STEPS TO SUCCESS

NEW STUDENT ENROLLMENT PROCESS

**Information Session
CTE Only**

For those interested in a career training program enroll and register online for this required Information Session which outlines the courses and attendance requirements of each program.

**Enrollment/
Orientation Session**

The Enrollment Session is a two step process - (1) enter your demographic information as required by state Education, (2) participate in an Orientation. Students will be given important information as to what services are provided and what skills will be important in order to meet their end goal through our courses in this session.

Assessment Session

Take a basic skills assessment to determine your class level and if academic support is needed.

Register for Class

Once a student completes the Enrollment/Orientation and Assessment Sessions students can register for their academic or career education classes.
